

home screen with recommended and most popular meditations, with each meditation containing a symbol

go to the settings to add a new label/symbol to organize meditations by

go to the settings, with all the options and click on labels

add, edit or delete labels with a name, color and symbol

When adding a label, you can add the name, color and an optional symbol. The question mark/input with red stars require an input

On the home screen, by clicking the bar on the left, there is a list of all the labels that are present/created/favorited by the user so that they can easily find meditations of their interest

When the user presses on a user-created/pre-created label, it opens up into a new window that contains all the meditations that have that label
